

Toruń, 23 październik 2012 roku

## REFERENCES

Rafał Lesniewski during two years of work in our company established himself as a very competent employee. Despite his young age, had an experience characterized by employees with many years of seniority. This feature of the persons for whom the work is done not only professional obligation, but also a private passion.

Mr. Lesniewski alone solve any task put before him in the field of internet marketing. More importantly, however, also initiated a number of actions alone that time proved to be the correct choice from the point of view of our company.

He was not only an employee of combining features such as the accuracy and quality of performed tasks, but also marked by ingenuity and creative approach to the requirements that came to meet him.

Our two-year work has allowed us to see the merits of a person prepared for work in the field of programming, and a very good friend and a trustworthy man who enriched environment for both their knowledge and rich personality.

All of this allows us to assess it as a very useful employee who will not fail to expectations.

Sincerely

PROKURENT

Robert Pyka
